COMMERCIAL DOSSIER VOLUME 2

SURGCLEAR PLATFORM MONETISATION & FINANCIAL MODEL

Transaction Economics, Revenue Stream Breakdown, Unit Economics across Surgical Specialties, and 3-Year ARR Pro-Forma Projections.

Multi-Sided Transaction Monetisation: Hospital SaaS, Gap Automation, Fintech Clips & Specialist Subscriptions

DOCUMENT TYPE
Commercial & Financial Model

MONETISATION ENGINE
Multi-Sided Transactional SaaS & Take-Rate

AVERAGE REVENUE PER EPISODE (ARPE)
R 292.73 ZAR Net Gross Fee

YEAR 1 ARR TARGET
R 4.85 Million ZAR (~1,500 episodes/month)

YEAR 3 ARR TARGET
R 58.60 Million ZAR (~18,000 episodes/month)

GROSS MARGIN PROFILE
84.5% (SaaS / API Infrastructure)

1. The 4 Multi-Sided Revenue Streams: How We Get Paid

SurgClear generates platform revenue from the institutional beneficiaries of financial clearance rather than overburdening patients with subscription fees:

Stream	Payer Entity	Fee Structure	Billing & Collection Mechanics
1. Hospital Pre-Admission SaaS Fee	Hospital Groups (Netcare, Life, Mediclinic, Day Clinics)	`R 95.00 R 125.00` per verified surgical admission	Billed monthly in arrears to hospital group finance based on scanned QR admission tokens.
2. Gap Cover Auto-Packaging Fee	Gap Cover Underwriters (Sirago, Turnberry, Zestlife)	`R 145.00 R 195.00` per auto-packaged digital claim	Deducted automatically as an administrative adjudication clip on approved EFT shortfall payouts.
3. Fintech Co-Pay & Financing Take-Rate	Payment Providers & Medical Financing Lenders	`2.85%` clip on Instant EFT + `1.5%2.5%` origination	Real-time transaction take-rate split via Stitch / Capitec Pay / Ozow payment gateway.
4. Specialist Practice Cockpit SaaS	Specialist Surgical Practices (Surgeons, Anaesthetists)	`R 650.00 R 1,200.00` per practice / month	Monthly direct debit / card subscription for practice management booking software integration.

2. Unit Economics Across Top South African Surgical Procedures

The table below illustrates the exact financial breakdown and SurgClear revenue capture on five high-volume elective surgeries in South Africa:

Procedure (RPL Code)	Total Case Billing (ZAR)	Specialist Shortfall	Gap Cover Payout	Patient Co-Pay	SurgClear Net Fee
Knee Arthroscopy (RPL 2443)	R 83,775.00	R 14,055.00	R 14,055.00	R 1,850.00	`R 292.73`
Laparoscopic Cholecystectomy (RPL 1807)	R 69,200.00	R 11,800.00	R 11,800.00	R 2,400.00	`R 308.40`
Cataract Extraction (RPL 3047)	R 28,400.00	R 5,600.00	R 5,600.00	R 950.00	`R 267.08`
Total Hip Replacement (RPL 2391)	R 148,500.00	R 28,400.00	R 28,400.00	R 4,500.00	`R 368.25`
Elective Caesarean Section (RPL 2614)	R 54,000.00	R 8,900.00	R 8,900.00	R 1,500.00	`R 282.75`
Weighted Average Across Specialties	**R 76,775.00**	**R 13,751.00**	**R 13,751.00**	**R 2,240.00**	`R 303.84 / Case`

3. 3-Year Pro-Forma Income Statement & ARR Growth Trajectory

With 1.2 million elective surgical admissions occurring annually in South Africa, capturing a modest 1.5% to 18% market share yields exceptional venture returns:

Metric / Line Item	Year 1 (Regional Pilot)	Year 2 (Day Hospital Scale)	Year 3 (National Enterprise)
Monthly Active Episodes	1,500 episodes / mo	6,500 episodes / mo	18,000 episodes / mo
Annual Surgical Volume	18,000 cases (1.5% TAM)	78,000 cases (6.5% TAM)	216,000 cases (18.0% TAM)
Specialist Practices Subscribed	65 practices	280 practices	850 practices
Annual Hospital SaaS Revenue (R95)	R 1,710,000	R 7,410,000	R 20,520,000
Annual Gap Packaging Revenue (R145)	R 1,957,500	R 8,482,500	R 23,490,000
Fintech Take-Rate & Financing Clips	R 675,000	R 3,250,000	R 8,910,000
Specialist Cockpit Subscriptions	R 507,000	R 2,184,000	R 5,680,000
Total Annual Recurring Revenue (ARR)	`R 4,849,500 (~$270k)`	`R 21,326,500 (~$1.18M)`	`R 58,600,000 (~$3.25M)`
Cost of Goods Sold (Hosting, Switch Fees)	(R 780,000)	(R 3,100,000)	(R 7,900,000)
Gross Profit (Gross Margin %)	**R 4,069,500 (83.9%)**	**R 18,226,500 (85.5%)**	**R 50,700,000 (86.5%)**
Operating Expenses (Engineering, Sales, G&A)	(R 4,200,000)	(R 9,800,000)	(R 19,400,000)
EBITDA Operating Profit / (Loss)	**(R 130,500)**	`R 8,426,500`	`R 31,300,000`
EBITDA Margin %	-2.7% (Near Breakeven)	**39.5%**	**53.4%**

> **Capital Efficiency:** Because SurgClear leverages existing switching house rails and hospital admissions desks rather than building physical clinics, the platform achieves operational cash-flow breakeven by Month 14 on less than R7.5M in seed capital.
